

ALZHEIMER'S INFORMATION POINT

Support for people with dementia and their carers and family

Caring for someone with Alzheimer's or any of the other forms of dementia can be a difficult and demanding task.

Whoever you are looking after, mother or father, husband or wife, relative or friend, you will find there are problems you don't understand and questions you need to ask.

The Alzheimer's Information Point is there to help you

It provides advice and information on Alzheimer's Disease and other dementias and on the practical, financial & legal problems you may face.

We aim to promote greater awareness and knowledge of dementia in the community.

We support and befriend the carers of people with dementia whether their relative lives alone, with a relative, in residential care or in hospital.

We work together with the Alzheimer's Society and other organisations to give you guidance on what help is available.

Family carers and people with Alzheimer's are welcome to drop in for information and support or simply a coffee and a chat

Open every **Wednesday**
from **10.00am to 12.30pm**
at **9 Love Lane Romsey SO51 8DE**

For more information please contact:
Romsey and District Carers Forum 01794 515126 or 01794 519495
